## The agency

rbl is an independent strategic branding agency that works with complex organisations to deliver the insight, ideas and impact to create powerful brands that realise bold ambitions.

Our key stages: Discover, Define, Design, Deliver, cover everything an ambitious organisation could need for a strategic brand review from initial research to creative execution. This process flexes to meet the needs of all projects from full strategic branding programmes to distinct brand campaigns.

We are an expert and agile team of talented researchers, strategists, creatives and project managers producing award-winning brands for diverse public and private sector clients including FTSE 100 companies, public bodies, academic institutions, elite sports properties, social enterprises and entrepreneurial businesses.

We may be based in Leamington Spa, with all the lifestyle benefits that provides, but our clients are based anywhere from Michigan to Madrid, London to Leeds and everywhere in between. So, if you thought that leaving the city meant compromising on ambition, then think again, at RBL we create powerful brands to deliver bold ambitions.

As a small team it often means we need to roll up our sleeves and get stuck in. If our MD is happy to do it, then so are we! But that's where we excel and why we're such a tight-knit team that delivers great things together.

## The culture

By adding value and being valued we are building a thriving agency that is empowered and celebrated.

You must thrive on communication, trust, responsibility and success.

You will be empowered to be curious, flexible, to grow and to enjoy your work.

We will celebrate the impact you create, the precision you bring and your contribution to the team.
